Remember the Texas Company-was one time small. Their original capital was \$50,000 and today is \$67,000,000. The secret of this success is that the Texas Company was organized by PRACTICAL OIL MEN—they had the RIGHT holdings to begin with and the EXPERIENCE.

Jam-Up to the Gushers

Your only object in buying oil stocks is to make MONEY. Had you bought \$90 worth of Burk-Waggoner two weeks ago you could sell it today for \$1,500! Or Golden Cycle—you could sell for \$2,000!

We are safe in saying, without fear of successful contradiction, that had the drift been down a few feet on OSSENBECK'S wonderful 2% acres when these wells came in OSSENBECK'S stock would have gone to three or four to one. If these were over a reasonable excurs for raising the price of stock—before production is secured—OSSENBECK is certainly entitled to make the stock. titled to raise their stock.

For OSSENBECK'S lease alone is today worth more than twice the empitalization of the company.

But OSSENBECK is after OH, and not PROMOTION fees. There is not one penny in the promotion of this company for the officers. Of course, a small percentage of the stock sales goes for expense in sell-ing the stock—BUT A VERY SMALL PERCENT.

The benvisst investor in OSSENBECK is Mr. J. H. Ossenbeck. After spending the most of his life in the couploy of the big companies—starting at the age of 16 with the Standard Oil company as wate.

you want to own an interest in a company with NURE BHOT holdings—where there are NINE HUN-DRED AND NINETT-NINE chances out of a THOUSAND to get a HIG GUSHER—you must buy OSSENBECK TODAY.

Ossenbeck Oil Co.

Home Office Wichita Falls El Paso Office 206 N. Oregon Street

CHOPS HAND TO DODGE WAR.

These TWO companies bought in GUSHERS last work. Accesses immediately went up: stocks in companies, that were drilling in this neighborhood went up. And OSNENNECK is closer to the gushers than any company offering stock for public subscription.

We are safe in saying, without fear of successful contradiction, that had the drill been down a few perhaps no man is more familiar with the "wonder condition."

OSSENBECK wants YOU to buy stock in their com-pany because here is your greatest OFFORTUNITY for QUICK and BIG dividents. Just as soon as the remaining block of 250 shares is said Mr. Ossenbeck will leave immediately for the field to PERSON-ALLY superintend the drilling of OSSENBECK'S fleet well.

And because OSSENBECE is so auxious that the people of the Southwest get a share of the wealth being made in oil at BUREBURNETT and because since the THREE gushers cause in hast week making OSSENBECK'S property even more unlabble since OSSENBECK is now absolutely CONFIDENT that they, too, will get a GUSHUR-OSSENBECK has decide? I issue half shares, and will accept all \$50 subscriptions, provided, of course, that they reach the affice before OSSENBECK is oversubscribed.

OSSENBECK OIL CO., 206 N. Gregon St. El Pano, Tex.

Dear Mr. Commbeck:

Enclosed find St. Enclosed find S. for a share of stock in the OSSENIFICK OIL COM-PANY, at \$100 per share. I am buying this stock with the understanding that you are to personally enserintend all field and drilling operations.

Buy "Close In" Stuff--Be Safe

When you BUY stock in an OIL WELL buy where OIL IS. Not where it OUGHT to be-be safe. RANGER CENTRAL is in SIGHT of the LARGEST WELLS in Texas. The NORWOOD, the SUN and the ROPER, worth \$10,000,000.00 each, are our NEAREST NEIGH-BORS. This is the kind of land you are INVESTING IN. Up against these big gushers. They are PRODUCING over HALF A MILLION a month for their owners.

They are OWNED by the LARGE COMPANIES. You can't BUY a share. The Ranger Central is the only one in the field which the "LITTLE MEN" can TOUCH—expect our other well, the "OCEAN," which is long since sold out.

Over 30 wells are DRILLING all around us. Men who KNOW expect some of these to MAKE at least 25,000 barrels. It may be the Ranger Central, the "OCEAN," or any of our near NEIGHBORS, which will MAKE our stock worth at least 50 TO 1.

It is "ACTION" you want on your money. You must have "CONFI-DENCE" in our proposition. People who KNOW and who have BEEN on the field are the ONES who are BUYING this STOCK. It is taking 7 in our office to handle our subscriptions. In two weeks we will have none left.

The BALENTINE and POTEET wells are each DRILLING half a mile from us. They are MAKING practically the same "LOG" as the GREAT NORWOOD. These WELLS will be IN, in two weeks. If they STRIKE, Ranger Central will be selling 5 to 1. So BUY some stock now before it is too late-but DO NOT FORGET THE VIC-TORY LOAN.
